| 5. Managing members | 11. Seeing what residents see |
| 6. The Noticeboard | 12. Getting help |

1. Welcome

You have been invited to be the secretary of a club in Whiteley Village. The Village Voice Clubs portal is the tool you will use day-to-day to look after your club: keeping the member list up to date, posting notices, scheduling events, looking after your club's own page, and (if your club uses them) running the Cash Book and submitting Fund Bids.

This guide takes you through each part of the portal in turn. You can come back to it at any time using the orange "Secretary Getting Started Guide" bar at the top of your screen.

2. Signing in

You sign in using the personal link emailed to you by your community administrator. You do not need a password — the link is unique to you and recognises you as a secretary of your club.

1. Open the email and tap (or click) the access link.
2. The Village Voice Clubs portal opens at your club's Secretary view.
3. To sign out, tap **Sign Out** in the top-right of the header.

Tip: Bookmark the page after your first sign-in so you can return to it quickly. The link is personal to you — please don't share it with others.

[↑ Back to top](#)

3. The Secretary view layout

When you open the portal you will see:

- **Top header** — your name and a Sign Out button
- **Club banner** — your club's name, description and a quick count of Members, Pending requests and Notices
- **Six tabs** — Membership, Noticeboard, Events, Cash Book, Fund Bids, Club Page

Tap any tab to switch between sections. The portal remembers which club you're working on for the whole session.

4. If you manage more than one club

Some secretaries look after more than one club. If that's you, you can switch between clubs from the same sign-in — there's no need to sign out and back in.

When you sign in you'll see a short list of the clubs you manage. Tap the one you want to work on. To change later, return to that picker.

[↑ Back to top](#)

5. Managing members (Membership tab)

The Membership tab has two sections: **Pending Requests** at the top, and **Confirmed Members** below. Both are sorted alphabetically by surname.

Adding a member manually

1. On the Membership tab, tap **+ Add Member** at the top right of Pending Requests.
2. Type the member's name, email and any other details you have.
3. Tap **Save**. They appear immediately in your Confirmed Members list.

Note: Anyone you add this way must already be a registered resident of Whiteley Village. If you're not sure, ask your administrator before adding.

Approving a pending request

If a resident has asked to join your club via the Village Voice platform, their request appears under **Pending Requests**. To approve them:

1. Find their name in the Pending Requests list.
2. Tap **Approve**.
3. They move into the Confirmed Members list.

If you don't want to approve a request, tap **Decline**. They'll be removed from the list.

Removing a confirmed member

1. Find the member in the Confirmed Members list.
2. Tap **Remove** next to their name.
3. Confirm — they'll be removed from the club.

Note: Removing a member only removes them from your club. They remain a resident of Whiteley Village and can still use the rest of Village Voice.

6. The Noticeboard (Noticeboard tab)

The Noticeboard is where you post messages and updates that all members of your club will see.

Posting a notice

1. Switch to the **Noticeboard** tab.
2. Tap **+ Post Notice**.
3. Type a short title and the body of your notice.
4. Tap **Post**.

Your notice appears immediately at the top of the noticeboard for all club members.

Editing or removing a notice

Tap the notice you want to change. Edit and save, or use **Delete** to remove it entirely.

Good practice: keep notices short and clear. If something is time-sensitive (e.g. a session cancelled), say so at the top.

[↑ Back to top](#)

7. Adding and editing events (Events tab)

The Events tab has two sections: **Upcoming Events** and **Past Events**. Past events are hidden by default — tap **Show / Hide** to see them.

Adding a new event

1. Switch to the **Events** tab.
2. Tap **+ Add Event**.
3. Fill in the date, time, title, location and a short description.
4. Tap **Save**.

Editing an event

Tap an event in the Upcoming list. Change any field and save. To remove an event, use **Delete**.

How residents see events: Upcoming events from your club appear on your Club Page, on the all-club Club Calendar, and on each member's Village Voice events calendar alongside village-wide events.

[↑ Back to top](#)

8. Cash Book (Cash Book tab)

If your club handles money — subscriptions, refreshment income, equipment purchases — the Cash Book is where you record it. Each entry is either a **Receipt** (money in) or an **Expenditure** (money out). The portal keeps a running balance.

Adding an entry

1. Switch to the **Cash Book** tab.
2. Tap **+ Add Entry**.
3. Choose Receipt or Expenditure, then enter the date, amount and a short description.
4. Tap **Save**.

Filtering the list

Use the filter at the top of the Cash Book to show all entries, only Receipts, or only Expenditure. The summary at the top updates accordingly.

Keep it accurate: the Cash Book is a record. If you make a mistake, edit the entry rather than creating a correction one — it's clearer.

[↑ Back to top](#)

9. Fund Bids (Fund Bids tab)

From time to time your club may want to bid for funding — for new equipment, a special event, training, or anything else that benefits members. Fund Bids is where you submit and track those requests.

Submitting a new bid

1. Switch to the **Fund Bids** tab.

2. Tap **+ New Bid**.
3. Describe what you're asking for, why your club needs it, and the amount.
4. Tap **Submit**.

Your administrator will see the bid and respond. You'll see the status update in the list.

10. Your Club Page (Club Page tab)

Every club now has its own page in Village Voice that residents can open — a friendly shop window for your club, with a short introduction, your meeting details, photos, a video if you'd like one, and your upcoming events. The **Club Page** tab is where you decide what goes on it.

It's already started for you: your page opens with a short welcome message and a "Get in touch" contact already in place, so residents see something friendly from day one. When you're ready, replace the welcome message with your own words.

Editing the introduction and meeting details

1. Switch to the **Club Page** tab.
2. In **About this club**, write a short, warm description of your club — what you do, who it's for, and what a newcomer can expect.
3. Add your meeting day, time and place so they show at the top of the page.
4. Tap **Save heading**.

Adding words, photos and video

Below the introduction you can build up your page with blocks, in any order:

- **+ Add text block** — for news, a longer description, or anything you'd like to say.
- **+ Add image** — to show a photo. You add one by pasting its web address (link). Uploading a picture straight from your phone or tablet is coming soon.
- **+ Add video** — paste a YouTube link and the video plays right on your page. A short note appears underneath letting viewers know they can send it to their TV.

Each block has its own **Save**, and you can **move** blocks up or down to reorder them, or **delete** one you no longer want.

Your contact details: the name and phone number residents tap under “Get in touch” are set for you by your administrator, from the village’s published club secretary list. If yours needs changing, just let your administrator know.

Good to know: as soon as your page has an introduction or any content, residents can open it from the Clubs list. Until you add your own words, the friendly starter message lets them know the page is being set up.

11. Seeing what residents see

It’s helpful, especially when you’re just starting out, to see your club exactly as a member sees it on the Village Voice platform. There’s a quick way to do this:

1. In the top-right of the header, tap **View as resident**.
2. You’ll be taken to the residents’ clubs page, where you can browse just like a member would.
3. To return, use your browser’s Back button or close the tab.

Tip: Use this whenever you post a notice or schedule an event to check it reads well from the member’s side.

12. Getting help

If anything isn’t working as expected, or you’re unsure how to do something:

- Contact your community administrator first — they can see your club’s data and help directly.
- For technical issues that the administrator can’t resolve, contact VoiceVillage at colinhills@voicevillage.co.uk.
- This guide will be updated as the portal grows. You can come back to it any time using the orange bar at the top of your Secretary view.
